HiWi Position: Reliability and Timeliness in Communication-Control-Codesign (RTC³)

Kaiserslautern, May 25, 2021

Our group is now offering a HiWi position on the topic of Reliability and Timeliness in Communication-Control-Codesign. The following qualifications are expected for the applicants:

- Independent, target-oriented working and responsibility
- 8 hours work per week over 4 months
- Solid programming skill in one of the following languages:
  - Julia (preferred)
  - Python (preferred)
  - MATLAB
- Experience of numerical simulations
- Knowledge in probability theory and statistics, ideally also in stochastic processes
- Knowledge in controlling theory is a huge bonus

For application or more details of the thesis work, please contact Dr. Han.
