

**Are you fascinated by the latest innovations in the semiconductor industry?  
Are you interested in gaining practical first-hand and top expert knowledge?  
Then apply now to Dresden Microelectronics Academy!**

GLOBALFOUNDRIES, Infineon Technologies and TU Dresden will provide you an insight into the exciting world of the semiconductor industry.

Expert lectures combined with guided tours from industry professionals will give you an up to date look behind the scenes of this remarkable industry.

Discuss current and future challenges of the microelectronics world with top experts.

As an advanced student, postgraduate student or postdoc, you will have the chance to get to know and interact intimately with leading edge companies from the semiconductor community.

**Come and experience Dresden – Europe's leading side in microelectronics!**
